To all our valued client,

OH&S requirements in Australia require that cargo over 20 kgs per package may not be lifted by one person.

Due to these laws if **cargo is over 20 kgs per package, it should be loaded onto a pallet.**

We can offer this service for you with a cost of:

AUD \$45.00 / pallet

We have also found that with the additional weight we are often seeing boxes break under the weight of the cargo inside them. If you are going to load cargo heavier than 20 kgs it would be worthwhile checking the load ratings of the carton.

If you would like further clarification on this please do not hesitate to contact us.
